

**Formal Consultation
on the
Draft Transformation Plan for the
Redesign of Health & Social Care Services in the Forres
Locality Area**

Health & Social Care Moray have worked with local providers of health and social care services -as part of the Forres Locality Professional Core Group- to collectively produce this Draft Transformation Plan.

The plan aims to outline how the provision of health and social care can be improved in this area. With the temporary closure of Leancoil Community Hospital, the need to consider how a more preventive and reactive service can be further developed has become a pressing issue.

Before submitting the Transformation Plan for consideration to the Health & Social Care Moray Integration Joint Board (IJB) at the end of November 2018, we would like to hear your views on the attached document. Your responses will be used to further refine this Plan and will be considered by members of the IJB.

The following feedback form can be completed by anyone. You can also complete it on line at: <https://www.surveymonkey.co.uk/r/Forres-locality>

We are particularly interested though in hearing the views of people living in the Forres and surrounding area and if you are, or have used locally based health and social care services in the past, an informal carer or a representative from a locally based community organisation.

The form and attached document can be provided in a larger format or in brail for people who are visually impaired. It is also available online.

Please return by 1 November 2018 to the address at the end of the document.
