

ScotCen

Social Research

Hello! We work for an organisation called ScotCen Social Research. We would like to talk to you about gambling and gambling adverts.

An organisation called GambleAware has asked us to help them with this research. This leaflet tells you a bit more about what taking part would involve.

When? Monday 28th January 2019
Where? Moray Resource Centre, Maisondieu Rd, Elgin IV30 1RX
What time? 1.30 – 2.30pm

What will happen?

We will talk to you and a small group of people about what you think about gambling adverts and marketing. We want to hear your views.

Do I have to take part?

No, it is up to you. You do not have to answer any of the questions we ask if you do not want to.

What will happen with the information I tell you?

At the end of the project, we will write a report about some of the things you have told us, but we will not use your name in this report.

How long will it take?

The group discussion will last around an hour.

Why should I take part?

You may enjoy sharing your views. You will also get a £20 Love2Shop voucher as a thank you.

What sort of things will you ask me?

Together as a group we will talk about what you think about gambling and adverts and how you think these adverts might affect people.
